
Sender narrowing
A → A′
Bridge translation
ρ_R = B(A′, state)
Carried record
ρ_R
Receiver read set
V_read ⊆ V_R
Admission decision
admit / deny
carried but unread = uncarried
Locus B — bridge side
applies when the bridge itself widened
Repair: narrowing-preserving manifest derivation
no receiver-side consumption can recover a fact the bridge did not narrow.
repair at the bridge
bridge derivation
narrowed manifest
Locus A — receiver side
applies when the narrowed fact crossed intact
Repair patterns
Consumption
receiver reads the carried narrowed fact.
Evidence carriage
carry the upstream decision as evidence.
digest-only
signed
Fail-closed refusal
measured fallback; benign cost disclosed.
